Sealed Seam

Features That Matter - Norix Blue

Bed Bug Resistant

The sealed seam eliminates any potential entry points for bed bugs to hide within the mattress, supporting a safe and sanitary environment.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Extended Warranty

A 5-year limited prorated warranty protects against seam failure and cover material cracking.

Fire-Retardant

The foam core is encased with a fire sock to offer an additional layer of protection and slow the potential combustion of the mattress.

Fluid Resistant

The sealed seam and non-absorbent, TPU coated cover combine to resist bodily fluids, cleaning solutions and a wide variety of other liquids that your facility may encounter.

GreenGuard Gold Certified

The highest level of GreenGuard Certification, this product meets strict health-based criteria for VOC emissions and total chemical emissions.

No Minimums

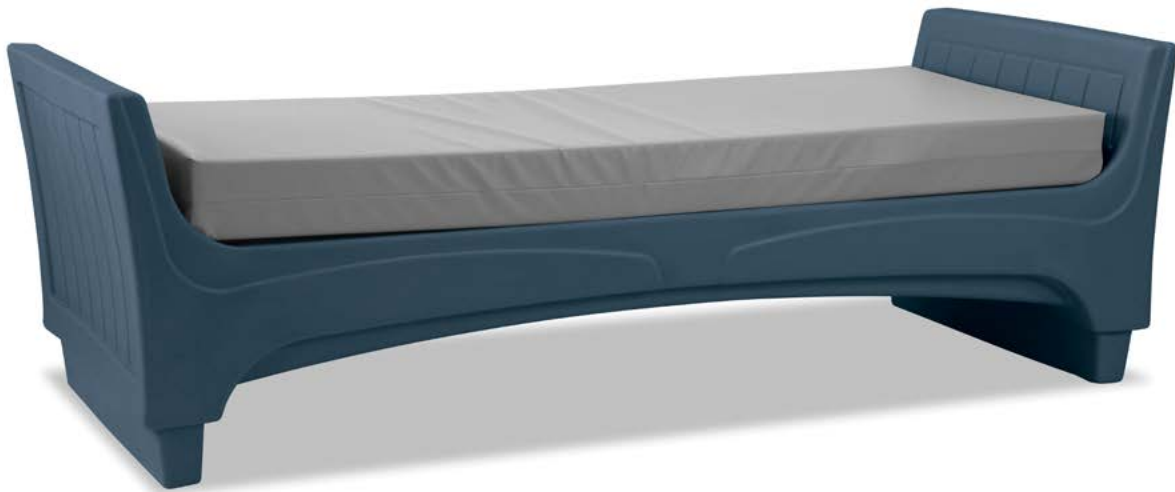

There are no minimum quantity requirements for all standard Norix mattresses, promoting a worry-free ordering process.

Robust Comfort

A soft, TPU coated polyester cover delivers an ideal combination of comfort and durability without the risk of cracking over time.

Sealed Seam

Inverted radio-frequency welding is used to form a minimally visible sealed seam that provides extreme security in comparison to traditional sewn seams.

Features That Matter - Silver Secure

Bed Bug Resistant

The sealed seam eliminates any potential entry points for bed bugs to hide within the mattress, supporting a safe and sanitary environment.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

No Minimums

There are no minimum quantity requirements for all standard Norix mattresses, promoting a worry-free ordering process.

Robust Comfort

A soft, TPU coated polyester cover delivers an ideal combination of comfort and durability without the risk of cracking over time.

Sealed & Stitched Seam

Inverted radio-frequency welding is used to form an extremely secure sealed seam, then reinforced with internal stitching for maximum security and is guaranteed not to break.

Rip-Stop Cover

An enhanced tear-resistant, rip-stop scrim is woven into the cover material to provide an extra layer of security and prevent tearing in the event of a puncture.

Features That Matter - Norix Blue Wedge

Bed Bug Resistant

The sealed seam eliminates any potential entry points for bed bugs to hide within the mattress, supporting a safe and sanitary environment.
